ABOUT ME

Full Stack Developer with 3+ years of experience delivering responsive, scalable, and high-performance web applications. Built dynamic UIs using **React.js, Next.js, TypeScript, and Tailwind CSS**, and developed robust backends with **Node.js, Express.js, and MongoDB**. Worked on projects involving **API integrations** (third-party services, authentication, and dashboards), as well as real-time features that enhanced user experience. Experienced in optimizing applications for performance, accessibility, and cross-browser compatibility. Collaborated with cross-functional teams in Agile environments.

SKILLS

Frontend

- React.js
- Next.js
- TypeScript
- JavaScript
- Redux Toolkit
- Tailwind CSS

Backend

React, Next.js, Redux & More
Udemy

WORK EXPERIENCE

Fountain Hills Technologies

Aug 2024 - Present

Full stack developer

- Developed and optimized the company's main website and blog using Next.js, Tailwind CSS, and Cosmos DB, and built a procurement software (Quote Manager) with React.js, Node.js, and MongoDB, improving SEO-driven traffic by 30% and streamlining vendor management and approvals.
- Engineered backend integrations with Datto RMM, Rubrik, and Dark Web Monitoring into Zoho Desk using Node.js, Express.js, and REST APIs, enhancing incident response efficiency by 40% and automating workflows to cut manual tasks by 25%.

Konnectify

Full stack developer

June 2023 - July 2024

- Contributed to the company's iPaaS product, building and maintaining custom integrations for third-party tools using React.js, Node.js, JavaScript, REST APIs, and MongoDB, enabling seamless data flow across platforms.

Junior Software Developer

Aug 2022 - May 2023

- Designed and delivered 10+ custom integrations for Freshworks products (Freshdesk, Freshsales, Freshchat, Freshservice) using JavaScript, REST APIs, and Freshworks SDKs, solving complex workflows, ensuring clean and maintainable code, and boosting client satisfaction and retention by 25%.

PUMO TECHNOVATION INDIA PRIVATE LIMITED

Software Developer Intern

May 2022- Aug 2022

- Gained hands-on experience in website development using HTML, CSS, JavaScript, and Bootstrap, contributing to internal UI enhancements while collaborating with senior developers.

PROJECT

- Procurement Software (Quote Manager) – streamlined vendor management and approvals.
Stack - React.js, Node.js, MongoDB
- Healthcare Website (GutiCare) – implemented kit ordering system for patients.
Stack - Next.js, Node.js, MongoDB
